

• Composition	High-Performance Technopolymer
• Max Working Pressure	>6 bars
• Oxygen transfer	0.0075 cc/atm/day P. 1 bar - T. 23°C - Shelf life 2 years
• Suitable for pasteurization	Max 75°C pH=6 1h max
• Vertical closing force	20 - 25 KgF
• Horizontal opening force	8 - 12 KgF
• Weight	15,08 g ±0,03

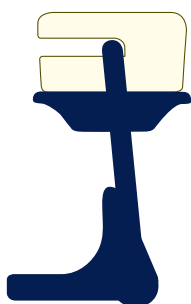

The product complies with the regulations in force for articles intended to come into direct contact with foods according to Commission Regulation (EU) Nr. 10/2011 of 14 January 2011. Compliant with the US Directive: FDA CFR (Code of Federal Regulations), Title 21 § 177.1520 "Olefin polymers".
